

April 4, 2018 National Corvette Museum Report

So, Spring has not reached Bowling Green yet either. I wanted to report on the motor sports track, but bad weather has cancelled so many events there is nothing to report. Will try again next month.

At the museum there are a few things to report. There is a new on line series that will be on Mondays called Moore Monday's from the Museum's curator Derek Moore. He will share with viewers the history of a car. The features will be on Facebook and You Tube with a live video around 10:30am CT also on Facebook. This past week was the history of the Falconer and next week will highlight the Camaro.

Remember that the Michelin NCM Bash is coming in April. The dates are April 26-28.

The NCM Lemans viewing party will be June 16-17.

Also the 24th anniversary celebrations of the museum will be August 30 through September 1st.
