

National Corvette Museum Report 7/11/2018

An email from the museum informed me that all available spots for parking lot banners were filled this year. This is the banner that we present to member of year. We have a great location this year, it is on the main sidewalk in front of museum, to the right of the main entrance. It is also on a light pole by itself whereas most poles have two banners. Go to the museum website and you can view all he banners, it fun to see the corvette clubs from across the states and even from Hawaii.

Coming up at the end of August is the 24th anniversary celebration of the museum. Every year the museum celebrates their anniversary with a three' day event. This year it runs forum August 30 thru September 1. This event is the same as the big 5 year anniversary event but with a lot less people and cars. Just a few of the events that will take place on Thursday are the building of a LT5 engine by hand piece by piece and ready for a Z06 when finished. Another popular event started last year is shifting and shooting. This is shooting for fun and points for prizes. Lunch, firearms and ammo are provided. You may bring your own firearms for practice only between events. More info on website

Also on Thursday there will be touring laps around the motorsports track. This is a Thursday event only. You will have a lead car and travel at average highway speeds. Convertibles and passengers are welcome for this event Karting will be available all weekend
You must go to the museum website to see all the events they offer all year long

RAFFLES:

July 12th 2019 Torch Red Corvette Coupe. 1000 tickets @ \$150 each.

August 2nd Blade Silver Corvette Convertible 1500 tickets @ \$100 ea

That's all for now. Thanks Jim
